* Any user can set up electronic security alerts for payments in BusinessNet, even if they do not have the authorization for an Overview.

** The authorized person with signatory rights the orders must be indicated on the authorization for disposing with funds on the transaction account.

*** Insight into a closed type account allows client to view the closed type account (this is a feature that must be activated by all users on the same account).

Meaning, on a certain account, all users must have one of the following options set::

- Permitted, for those who are allowed insight into the closed type account.
- Access denied, to import closed type accounts without the ability to see their content.

4. Category of signing

Category of signing:	First	Second	Third	Fourth
Advanced signature:	*Signature definition:			

A) **First - Independent signature - RIGHT** (Sign the tasks independently or sign with other signature categories but always last)

B) **Second - Collective signature - LEFT OR RIGHT** (Signing first or last, where the signing order depends on other signatories. Can provide next combinations of signatures: second-second, second – third, second - first, third - second)

C) **Third - Collective signature - LEFT** (Always signs first)

D) **Fourth - Collective signature - RIGHT** (Always signs last)

* **Nonstandard category** (If this option is selected, it should be specified in the definition agreed previously with your bank adviser)

5. Payment limits

(**WARNING:** For any changes of payment limits, a new original EBAN2c form must be completed and sent to the bank)

Daily and transaction limit for ordinary payments:	10 million	Amount:	EUR
Daily and transaction limit for instant payments:	10 million	Amount:	EUR
The amount which can be sent from each account, per day (Sum of all payments per account).			

The User (authorizer) authorizes the Authorized person to change the above limits.

* Payment restrictions (for regular and instant payments) apply only for users with signature rights on the above-mentioned accounts.

** In case both options are marked (10 million and Amount), the bank will accept the entered amount.

*** Payment limits are set only for EUR currency. In case of payments in other currencies, the limit depends on the current exchange rates.

**** Limits can always be set to less than 10 million EUR. In case you would like the limits higher than 10 million EUR, this requires the bank's approval.

***** The limits are established when the electronic banking system is activated and can be changed only upon the client's request.

***** The daily and transaction limit for regular payments also limit the daily and transaction limit for instant payments. If the transaction limit for instant payments is higher than the transaction and daily limit for regular payments, the service will take the lower limit (regular payment limits) into account when making an instant payment and will not allow your instant payment to be executed.

6. User's consent for insight to documentation within BusinessNet

If the user (authorizer) does not agree to the following, this authorization will be invalid. The authorized person who should access BusinessNet for the purpose of conducting business with the company's bank account and in accordance with the rights defined in the authorization, will not get his/her access granted.

User (authorizer) agrees that the authorized person have a right to insight to the entire documentation which may be presented in BusinessNet, which, among other things, but not exclusively, includes documents from the following areas* of business with UniCredit Banka Slovenija d.d. and may also contain personal data.
